As Theresa May becomes PM...

DEFEND CORBYN: FIGHT AUSTERITY & RACISM

While the Tories are attempting to patch up their divisions by uniting behind the new Prime Minister Theresa May, the Blairites in the Labour Party are continuing their attacks on Jeremy Corbyn.

Labour's National Executive Committee voted by only 4 votes to allow Jeremy Corbyn onto the ballot paper to elect a Labour leader. They then ruled 100,000 new party members out of voting in the leadership election.

The likes of Angla Eagle and Owen Smith are standing despite Corbyn having an overwhelming mandate to lead the party.

Instead of attacking Jeremy Corbyn our movement should be uniting against Theresa May's plans for more austerity and racism.

May has been at the heart of Tory attempts to scapegoat migrants and refugees, while deflecting blame from those really responsible for cuts and closures, the Tories and their rich friends.

We support Jeremy Corbyn's campaign to be re-elected as Labour leader.

We oppose any attempt by the Tories to step up their austerity agenda or to ramp up racism, scapegoating and Islamophobia. We say unite against austerity, refugees welcome here!
